WONDER WOMAN

When you think of a woman who can do anything, you think of Wonder Woman. In the DC Comics universe, the Amazon warrior is a superhero from Themyscira who stands for courage, strength, and justice.

But Wonder is human. She's strong in a way that's not the strength of brute force. "I don't really get stronger with the belt or bracelets," says the actress who plays the character. "I'm not a superhero. I'm just a girl who happens to be able to do things that other people can't do." She's also a girl who will do anything to save the world. "I'm not really a superhero," she says. "I'm just a girl who happens to be able to do things that other people can't do."
